

Job Description

AI/ML Developer (Associate)

Asapp Studio | Lahore, Johar Town | Full-time, In-person
Salary: Up to Rs 60,000 (per posting)

About the Role

We are looking for a motivated and talented AI/ML Developer to join our growing technical team. This is an ideal role for a fresh graduate or a professional with a maximum of 1 year experience who is passionate about building intelligent systems and working with modern machine learning frameworks. You will work closely with our senior developers to design, develop, and deploy AI-driven solutions.

Key Responsibilities

- Assist in the development and implementation of machine learning models and algorithms
- Clean, preprocess, and analyze large datasets to ensure data quality
- Collaborate with the engineering team to integrate AI models into production environments
- Optimize existing ML libraries and frameworks for better performance
- Keep up-to-date with the latest trends and advancements in the AI/ML landscape

Required Skills & Qualifications

Category	Requirement
Experience	6 months to 1 year of professional experience in AI/ML development
Education	Bachelor's degree in Computer Science, Data Science, or related field (Master's a plus)
Programming	Strong proficiency in Python
Frameworks	Familiarity with TensorFlow, PyTorch, Scikit-learn, or Keras
Mathematics	Solid understanding of linear algebra, calculus, and statistics
Problem Solving	Strong analytical mindset with a "can-do" attitude toward complex challenges

What They Offer

- Competitive starting salary of Rs 60,000
- Mentorship from senior technical leads
- A collaborative and fast-paced work environment
- Opportunities for rapid career growth and skill development

How to Apply

Submit your updated CV and a link to your GitHub profile or portfolio showcasing your AI/ML projects to: **hr@asappstudio.com**
